Cass Information Systems, Inc. Named Among Top 100 Logistics IT Companies for 2009

07/28/09

ST. LOUIS, Jul 28, 2009 (BUSINESS WIRE) -- Cass Information Systems, Inc. (NASDAQ: CASS), the leader in providing transportation, utility, and telecommunications expense management solutions, was named an Inbound Logistics Top 100 Logistics IT Company for 2009. Cass is being recognized for its solutions that help companies control and manage supply chain expenses.

Providing transportation expense management services since 1956, Cass serves many of the Fortune 500 including **Caterpillar Inc., Ford Motor Company, Emerson, The Hershey Company, The Kroger Company, Macy's Inc, Whirlpool Corporation** and many others.

The publication's editor Felecia Stratton stated, "2009 continues to be a year where every opportunity and efficiency must be seized, and Cass consistently provides the kinds of technology solutions business logistics managers need to successfully manage their global enterprises. As shippers, carriers, and 3PLs increase their use of logistics IT, Cass is flexible and responsive, anticipating customers' evolving needs."

Each April for the past decade, *Inbound Logistics* has recognized 100 logistics IT companies that support and enable logistics excellence. Using questionnaires, personal interviews, and other research, the publication's editors select 100 companies they believe are best at meeting the fast-changing needs of the logistics professional. All companies selected reflect leadership by responding to their customers' needs for simplicity, ROI, and efficient implementation.

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. Inbound Logistics' educational mission is to guide businesses to efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com.

About Cass Information Systems, Inc.
