At Cass, Cavellier will oversee the company's global information technology strategy and operations.

He has more than 25 years of experience in strategic technology planning and development of critical systems. His background includes streamlining operations, implementing

Agile and Lean methodologies and enhancing business partner alignment.

Immediately prior to joining Cass, Cavellier was a domain chief information officer for payment and wealth management technologies within **Comerica Bank**. Over 16 years at Comerica, he held numerous technology leadership positions ranging from strategic technology planning to operational responsibility for all technology across the U.S.

Previously, he held technology leadership positions with **The Auto Club Group**, **Ernst & Young, LLP** and **General Motors/Electronic Data Systems**.

"The rapid pace of change in today's world of commerce makes the continuing investment in and growth of our IT function a corporate imperative," said **Eric H. Brunngraber**, Cass chairman and chief executive officer. "With more than two decades of experience in leading IT innovation for companies in various lines of business, Mr. Cavellier offers a proven record of performance."

Cavellier earned a bachelor's degree in management information systems and a master's degree in business administration from **Oakland University**, Rochester Hills, Michigan.

He served on multiple advisory boards within the university's School of Business Administration and was a supporter and mentor to such organizations as **We Build Character** and the **Michigan Council of Women in Technology**.
