**PROXY STATEMENT**

Annual Meeting of Shareholders  
to be held April 21, 2008

This Proxy Statement is being furnished to the common shareholders of Cass Information Systems, Inc. (the Company) on or about March 21, 2008 in connection with the solicitation of proxies on behalf of the Board of Directors of the Company (the Board) for use at the annual meeting of shareholders (the Annual Meeting) to be held on April 21, 2008 at the time and place and for the purposes set forth in the accompanying Notice of Annual Meeting, and at any adjournment or postponement of that meeting.

Holders of common stock, par value \$.50 per share, of the Company at its close of business on March 5, 2008 (the Record Date) are entitled to receive notice of and vote at the Annual Meeting. On the Record Date, there were 9,258,732 shares of common stock outstanding and entitled to vote at the Annual Meeting. Holders of record of common stock are entitled to one vote per share of common stock they held of record on the Record Date on each matter that may properly come before the Annual Meeting. Company management and members of the Board, in the aggregate, directly or indirectly controlled approximately 16% of the common stock outstanding on the Record Date.

Shareholders of record on the Record Date are entitled to cast their votes in person or by properly executed proxies at the Annual Meeting. The presence, in person or by properly executed proxy, of a majority of the shares of common stock outstanding on the Record Date is necessary to constitute a quorum at the Annual Meeting. If a quorum is not present at the time the Annual Meeting is convened, the Company may adjourn or postpone the Annual Meeting.

If a quorum is present, the affirmative vote of a majority of the shares entitled to vote which are present in person or represented by proxy at the Annual Meeting is required to elect directors, ratify the appointment of KPMG LLP as the Company's independent registered public accounting firm for 2008, and to act on any other matters properly brought before the meeting. Shareholders may not cumulate their votes in the election of directors.

Shares represented by proxies which are marked or voted (i) "withheld" for the election of the Board's director nominees, (ii) "abstain" to ratify the appointment of the Company's independent registered public accounting firm, or (iii) to deny discretionary authority on other matters will be counted for the purpose of determining the number of shares represented by proxy at the meeting. Such proxies will thus have the same effect as if the shares represented thereby were voted against such nominee or nominees, against the ratification of the appointment of the Company's independent registered public accounting firm, and against such other matters, respectively. Shares held by brokers that do not have discretionary authority to vote on a proposal and have not received voting instructions from their clients are considered "broker non-votes." Broker non-votes are considered present or represented for purposes of determining a quorum but are not counted or deemed present or represented for determining whether shareholders have approved that proposal. The inspector of elections appointed for the meeting will separately tabulate and certify affirmative and negative votes, abstentions and broker non-votes.

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (i) filing with the Secretary of the Company, at or before the Annual Meeting, a written notice of revocation bearing a date later than the date of the proxy, (ii) duly executing and dating a subsequent proxy relating to the common stock and delivering it to the Secretary of the Company at or before the vote is taken at the Annual Meeting or (iii) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice revoking a proxy, or any subsequent proxy should be sent to Cass Information Systems, Inc., Attn: P. Stephen Appelbaum, Secretary, 13001 Hollenberg Drive, Bridgeton, Missouri 63044.

All common stock represented at the Annual Meeting by properly executed proxies received prior to or at the Annual Meeting and not properly revoked will be voted at the Annual Meeting in accordance with the instructions indicated in such proxies. If no instructions are indicated, such proxies will be voted *FOR* the election of the Board's director nominees and *FOR* the ratification of the appointment of KPMG LLP as the Company's independent registered public accountants for 2008. The Board does not know of any matters other than the matters described in the Notice of Annual Meeting attached to the Proxy Statement that will come before the Annual Meeting.

The Board solicits the proxies. In addition to the use of the mails, proxies may be solicited personally or by telephone or electronic transmission by directors, officers or regular employees of the Company. It is contemplated that brokerage houses, custodians, nominees and fiduciaries will be requested to forward the soliciting material to the beneficial owners of common stock held of record by such persons, and will be reimbursed by the Company for expenses incurred therewith. The cost of solicitation of proxies will be borne by the Company.

**CORPORATE GOVERNANCE**

The Company’s Board oversees and guides the Company’s management and its business. Committees support the role of the Board on issues that benefit from consideration by a smaller, more focused subset of directors. All committee members are elected by and serve at the pleasure of the Board.

**Independence**

Based on the independence standards as defined by the marketplace rules of The Nasdaq Stock Market, Inc. (Nasdaq), the Board has determined in its business judgment that each of the following directors and director-nominees are independent, as such term is defined in the Nasdaq listing standards: Messrs. Brooksher, Chapell, Ebel, Edwards, Gillis, Grace, Krieg, Lindemann, Signorelli and Wicks. In addition, each of the members of the Audit Committee meets the heightened independence standards set forth in the Securities and Exchange Commission (SEC) rules and the Nasdaq listing standards. As further required by Nasdaq rules, the Board has made a subjective determination as to each independent director that no relationships exist which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, the directors reviewed and discussed information provided by the directors and the Company with regard to each director’s business and personal activities as they may relate to the Company and management. In evaluating and determining Mr. Gillis’ independence, the Board considered Mr. Gillis’ relationship with Armstrong Teasdale LLP, a law firm that provides legal services to the Company. Mr. Gillis was a partner at Armstrong Teasdale LLP until December 2006. Since January 1, 2007, Mr. Gillis has been employed as a senior counsel at Armstrong Teasdale.

**Board Meetings and Committees of the Board**

The Board meets on a quarterly basis in January, April, July and October. There were four meetings of the Board in 2007. All directors attended at least 75% of the aggregate number of meetings of the Board and committees on which they served. The Company’s directors are encouraged, but not required, to attend the Company’s Annual Meeting. In 2007, seven directors attended the Annual Meeting.

The following table represents the membership and number of meetings in 2007 (in parentheses) of the standing committees of the Board, each of which is composed entirely of independent directors, as defined by Nasdaq and SEC rules:

### **Audit Committee**

The Audit Committee operates pursuant to a written charter that is approved by the Board and available on the Company's website at [www.cassinfo.com](http://www.cassinfo.com). The Audit Committee oversees the accounting and financial reporting processes of the Company and the audits of the Company's financial statements. The Audit Committee is responsible for appointing, determining funding for and overseeing the independent registered public accountants for the Company, and meeting with the independent registered public accountants and other corporate officers to review matters relating to corporate financial reporting and accounting procedures and policies. Among other responsibilities, the Audit Committee reviews financial information provided to shareholders and others, assesses the adequacy of financial and accounting controls and evaluates the scope of the audits of the independent registered public accountants and reports on the results of such reviews to the Board. In addition, the Audit Committee assists the Board in its oversight of the performance of the Company's internal auditors. The Audit Committee meets with the internal auditors on a quarterly basis to review the scope and results of such services. The Board has determined that Mr. Grace and Mr. Krieg, each of whom the Board has determined to be independent, qualify as "audit committee financial experts", as defined by the SEC and in accordance with the Nasdaq listing rules.

### **Nominating and Corporate Governance Committee**

The Nominating and Corporate Governance Committee operates pursuant to a written charter that is approved by the Board and available on the Company's website at [www.cassinfo.com](http://www.cassinfo.com). The Nominating and Corporate Governance Committee is responsible for identifying individuals qualified to become members of the Board, recommending director-nominees and developing and addressing corporate governance principles and issues applicable to the Company and its subsidiaries. In recommending director-nominees to the Board, the Nominating and Corporate Governance Committee solicits candidate recommendations from its own members, other directors and management. In evaluating candidates, the Nominating and Corporate Governance Committee takes into consideration such factors as it deems appropriate, including any legal requirements or listing standards requirements. The Nominating and Corporate Governance Committee considers a candidate's judgment, skills, diversity, experience with businesses and other organizations of comparable size, the interplay of the candidate's experience with the experience of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any committees of the Board. In general, no person who will have reached the age of 80 prior to election date may be nominated for election or re-election to the Board. It is also the Board's practice to limit new directors to no more than two per year in order to maintain Board continuity.

Although the Nominating and Corporate Governance Committee does not specifically solicit suggestions for possible candidates from shareholders, the Nominating and Corporate Governance Committee will consider candidates meeting the criteria set by the Nominating and Corporate Governance Committee, with the concurrence of the full Board. The criteria will be re-evaluated periodically and will include those criteria set out in the Nominating and Corporate Governance Committee's charter. Suggestions, together with a description of the proposed nominee's qualifications, other relevant biographical information and an indication of the willingness of the proposed nominee to serve, should be sent to the Cass Information Systems, Inc., Attn: P. Stephen Appelbaum, Secretary, 13001 Hollenberg Drive, Bridgeton, Missouri 63044.

## **Compensation Committee**

The Compensation Committee operates pursuant to a written charter that is approved by the Board and available on the Company's website at [www.cassininfo.com](http://www.cassininfo.com). The Compensation Committee discharges the Board's responsibilities relating to compensation of the Company's directors, CEO and other executives. The Compensation Committee also has overall responsibility for approving, evaluating and administering the compensation plans, policies and programs of the Company.

### Compensation Processes and Procedures

As specified in its charter, the Compensation Committee approves the annual retainer and meeting fees for the Board of Directors and committees of the Board, and sets the terms and awards of stock compensation for members of the Board, subject to shareholder approval where appropriate.

The Compensation Committee establishes and administers the Company's executive compensation programs and benefits. While the Compensation Committee may seek input and recommendations from the CEO, CFO, COO-President or the Vice President of Human Resources concerning all elements of executive and director compensation, and confer with them on compensation philosophies, all significant matters regarding compensation for executives are independently considered and decided by the Compensation Committee. The Compensation Committee annually reviews corporate goals and objectives relative to the CEO's compensation and determines the CEO's compensation level based on this evaluation, subject to Board approval. The Compensation Committee is responsible for recommending to the Board salary levels and incentive stock compensation for executive officers of the Company, and approves incentive stock compensation for other members of management as recommended by the CEO. The responsibility for determining cash bonuses for executive officers other than himself is delegated to the CEO.

Periodically, the Company uses compensation specialists to assist in designing or modifying some components of its overall compensation program and to provide comparison data of compensation levels at other organizations with which the Company competes for executive management talent. In such circumstances, the Compensation Committee does not rely solely on survey data or the consultant's judgment or recommendation, but considers such data when exercising its judgment in evaluating the Company's compensation program.

### Compensation Committee Interlocks and Insider Participation

No member of the Compensation Committee is, or was during the year ended December 31, 2007, an officer, former officer or employee of the Company or any of its subsidiaries, or a person having a relationship requiring disclosure by the Company pursuant to Item 404 of Regulation S-K. No executive officer of the Company served as a member of (i) the compensation committee of another entity of which one of the executive officers of such entity served on the Company's Compensation Committee or (ii) the board of directors of another entity of which one of the executive officers of such entity served on the Company's Board, during the year ended December 31, 2007.

## **Code of Conduct and Business Ethics**

The Company has adopted a Code of Conduct and Business Ethics policy, applicable to all Company directors, executive officers and employees. This policy is publicly available and can be viewed on the Company's website at [www.cassininfo.com](http://www.cassininfo.com).

## **Certain Relationships and Related Party Transactions**

Some of the directors and executive officers of the Company, and members of their immediate families and firms and corporations with which they are associated, have had transactions with the Company's subsidiary bank, including borrowings and investments in depository accounts. All such loans and investments have been made in the ordinary course of business, and on substantially the same terms, including interest rates charged or paid and collateral required, as those prevailing at the same time for comparable transactions with unaffiliated persons, and did not involve more than the normal risk of collectability or present other unfavorable features.

As provided by the Audit Committee’s charter, the Audit Committee must review and approve all transactions between the Company and any related person that are required to be disclosed pursuant to Item 404 of Regulation S-K. “Related person” and “transaction” shall have the meanings given to such terms in Item 404 of Regulation S-K, as amended from time to time.

**Communications with the Board of Directors**

The Board has established a process by which shareholders can communicate with the Board. Shareholders may communicate with any and all members of the Board by transmitting correspondence to the following address or fax number: Cass Information Systems, Inc., Name of Director(s), Attn: P. ## **Compensation Discussion and Analysis**

### Overview of Compensation Philosophy and Objectives

The Compensation Committee believes that the skill and dedication of executive officers and other management personnel are critical factors affecting the Company's long-term success in meeting its objectives and fostering growth and profitability. In support of this, compensation programs have been designed to attract and retain a high level of talented leadership, to reward performance in accordance with results, provide an incentive for future performance and align Company executives' long-term interests with those of the shareholders.

The overall compensation program is designed to result in compensation that is commensurate with Company and individual performance. High levels of performance should yield cash compensation which is competitive externally and equitable internally. Incentive stock compensation should combine with cash compensation to competitively reward high levels of performance, create an incentive for attainment of longer-term objectives and provide a tool to retain key management talent.

Executive compensation is comprised of three major components: (i) base salaries reviewed annually by the Compensation Committee, (ii) cash incentive bonuses awarded on individual and Company performance, and (iii) long-term equity incentives awarded annually based on individual and Company performance. The compensation mix of cash and long-term incentives for the CEO is similar to that of other executive officers of the Company, and is believed to be consistent with compensation provided to similar positions at comparable organizations. The CEO is eligible to participate in all Company benefit programs including those available to other executive officers, and receives no additional perquisites beyond those provided to other executive officers, as described below.

In order to assure that executive compensation is both competitive and appropriate, the Compensation Committee reviews executive compensation in its entirety before determining compensation level adjustments to any specific components. As such, the Compensation Committee considers the value of cash and incentive stock compensation, as well as non-cash benefits such as perquisites and the calculated values of any retirement benefits provided under the Company's defined benefit, defined contribution and supplemental retirement plans. Gains from prior incentive stock awards are not taken into account, as these were awards earned and granted based on prior performance.

The Compensation Committee also periodically compares all compensation components for executive officers with data on similar positions at other organizations with which the Company competes for talent. When evaluating external competitiveness, third party survey data, as well as information from other resources and industry contacts, are considered. In reviewing comparative data, the Company does not engage in benchmarking for establishing compensation levels relative to any predetermined point. In the Committee's view, third party survey data provides insight into external competitiveness, but is not an appropriate single basis for establishing compensation levels. This is primarily due to the Company's unique structure, differences in the size of surveyed companies, and the lack of sufficient appropriate matches to provide statistical relevance. The Company's preference is that performance, rather than benchmarking data, drive executive compensation. As such, the processes used by the Compensation Committee to establish and adjust executive compensation levels take into consideration external data along with performance, experience, retention, potential and internal equity.

In 2006, the Committee retained Towers Perrin to provide comparative data on cash and total executive compensation prior to review and adjustment of executive management compensation for 2007. Data was

provided for the Business and Professional Services, Financial Services and Payment Processing business segments. Consistent with prior years and the Company's intent not to engage in benchmarking, the Compensation Committee did not rely solely on comparative data, but did consider such elements when exercising its own judgment in determining 2007 compensation. Towers Perrin's overall conclusion confirmed the Committee's belief that 2007 compensation levels were appropriate for the Company.

The Compensation Committee determines all compensation adjustments for the CEO, subject to Board approval. The CEO makes recommendations to the Compensation Committee concerning performance and related salary and incentive stock levels for other executive officers, subject to the Compensation Committee's approval. The CEO has sole responsibility for determining cash bonus awards for all other executive officers, in accordance with plan provisions.

#### Elements of Compensation

The key elements in the executive compensation program are base salary, cash bonus awards and incentive stock compensation. These elements, as well as benefits plans and perquisites, are described below.

#### *Base Salary*

Salaries are established for executive officers by balancing both internal and external factors. Internal equity is determined through comparison with other executives within the Company, taking into account the scope of responsibilities, performance, skills and experience. Similarly, the Company considers external data to assure competitiveness in the market place. While considerable weight is given to performance of the individual and their associated operating unit, taking into account factors such as revenue growth, cost efficiencies, technological advancements and leadership, specific individualized targets and quantitative performance measurements are not utilized. Base salaries are designed to attract and retain high levels of expertise and talent. The Compensation Committee reviews salaries of the CEO and other executive officers at the beginning of each fiscal year. The Compensation Committee determines any adjustments to the CEO's salary and gives consideration to the CEO's recommendation regarding adjustment to executive officer salaries, based on the criteria referenced above.

Annual base salary increases for 2007 were warranted based on performance of individuals and individual operating units, strong corporate earnings, overall corporate growth over the past several years and competitive forces in the external market. Base salary increases were as follows: Mr. Collett, \$460,000 to \$485,000; Mr. Appelbaum, \$205,000 to \$211,000; Mr. Brunngraber, \$254,000 to \$274,000; Mr. Murray, \$215,000 to \$225,000; Mr. Langfitt, \$150,000 to \$165,000. Increases were consistent with those given in prior years.

#### *Cash Incentive Bonus*

Cash bonuses are paid to all eligible full and part-time employees according to the Profit Sharing Plan approved by the Board. Bonuses are based on subjective assessment of individual performance, based on the same factors considered with respect to salary adjustments and the level of Company profits. The purpose of this plan is to facilitate the Company's continued growth and success by providing rewards that are commensurate with achievement, thereby creating an incentive for superior performance and improved results for shareholders.

The bonus plan for all eligible employees is funded with 12.5% of the Company's net profits before taxes for each semi-annual period of distribution. Bonus funds available to the CEO are based on return on average equity for the period as defined by the plan. The CEO would not be eligible for a bonus if the return on average equity was zero or negative. Bonus funds available to other executive officers are allocated at the CEO's discretion, giving consideration to overall individual performance and both non-financial and financial achievements relative to the Company and the individual position. Individualized targets are not utilized. Any bonus payment in excess of 40% of base salary requires Board approval.

Bonuses earned by the CEO in 2007 were paid in August 2007 and February 2008 for the first and second halves of 2007, respectively. Bonus payments were made in accordance with the Company's Profit Sharing Plan, and were based on the return on average equity achieved by the Company during the respective six-month periods. Return on average equity for the first half of 2006 was 19.64%, resulting in a corresponding bonus for

the CEO of \$95,300, or 19.65% of base salary. Return on average equity for the second half of 2006 was 19.83%, which yielded the CEO's bonus of \$107,500, or 22.2% of base salary.

Bonuses for other named executive officers were also paid in August 2007 and February 2008 for the first and second halves of 2007, respectively, and were based on increase in net income after taxes achieved by the Company for the respective six-month periods. Increase in net income after taxes was 11.9% for the first half of 2006 and 24.3% for the second half of 2007, yielding the bonuses shown in the Summary Compensation Table included herein. Due to superior 2007 performance, CEO and executive bonuses were higher than in recent years. Mr. Langfitt's bonus, in particular, reflected exceptional unit sales growth for the year.

#### *Incentive Stock Compensation*

Incentive stock compensation is awarded to managers deemed to be part of the executive management team. The key objective for providing incentive stock compensation is to aid the Company in securing and retaining highly qualified personnel by offering an ownership interest in the Company and thereby inducing such personnel to provide service and effort for the Company's growth and success. The Compensation Committee considers this a significant motivational tool for executive officers and other management personnel, helping to align their interests with those of shareholders. It has been the Company's belief that long-term incentives serve as a retention tool since unvested stock grants and options are forfeited if the executive leaves the Company.

Incentive stock compensation is awarded based on both objective guidance and subjective evaluations made by the Compensation Committee.

The Compensation Committee initially establishes maximum levels of stock compensation available for individual awards by analyzing the Company's achievement of the following financial goals, averaged over the prior three fiscal years: (i) return on equity; (ii) increase in diluted earnings per share; and (iii) increase in processing fee revenues. Each of these financial goals is weighted equally in determining the incentive stock compensation payouts.

The Compensation Committee then determines the amount of incentive stock compensation awarded to each executive officer by using a combination of the objective measures described above and subjective criteria, including, but not limited to, an individual officer's level of responsibility within the Company, prior fiscal year performance, experience, and tenure with the Company. As with salary determinations, each officer's individual performance is measured based on his or her contribution to the Company's performance, demonstration of leadership and management, and overall achievements relative to his or her position rather than based on specific performance targets. The Committee relies heavily on recommendations of the CEO when determining incentive stock compensation awards for all named executive officers other than himself.

Historically, restricted stock awards and performance-based stock option grants were approved by the Board and issued in accordance with their respective plans. Restricted stock awards issued under the Company's 1995 Restricted Stock Bonus Plan were for common stock shares carrying voting and dividend rights, and subject to a three-year vesting schedule with 1/3 of the shares vesting each year on the anniversary date of the awards. Performance-based stock option grants issued under the Company's 1995 Performance-Based Stock Option Plan were for shares of common stock, subject to seven-year vesting with acceleration of vesting if certain financial criteria are attained. Stock options become eligible for accelerated vesting in the second calendar year after the option is granted, such that the earliest possible vesting date for any option shares would be in the third year after the option is granted. Acceleration factors are return on assets differential and net after-tax income growth. No more than 30% of the option shares accelerate in any year.

In 2007, the Board proposed and shareholders approved the 2007 Omnibus Incentive Stock Plan. The purpose of the plan was to update and expand the long-term incentive vehicles available to provide incentive opportunities that align the personal financial interests of directors and eligible employees with those of the Company's shareholders. To this end, the Board replaced the Company's current equity incentive plans with this plan for incentive stock compensation beginning in 2008.

During the transition between plans, 2007 awards were comprised solely of restricted stock awards, which have been included in the Summary Compensation and Grants of Plan-Based Awards tables. Awards for 2007

were due to the high level of performance achieved during 2004, 2005 and 2006, and based on the following averages: 15.7% return on equity; 24.95% increase in diluted earnings per share; and, 12.7% processing fee growth. For a more detailed discussion on these statistics, please see the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2007. Awards to named executive officers reflect varying levels of responsibility, with the highest level of awards going to executives with the most far-reaching responsibilities. Mr. Appelbaum's award reflects the fact that he joined the organization mid-year 2006.

The Compensation Committee reserves the right, subject to Board approval, to issue or refrain from issuing incentive stock compensation on a discretionary basis. Influencing factors include economic achievement, ethical standards, financial strength, management effectiveness and external market forces.

To date, the number of stock options and restricted shares held by the Company's executive officers is relatively small; therefore, the Compensation Committee has not considered the overall amount of stock option grants and restricted stock awards outstanding as a significant factor in determining additional grants or awards.

The Company does not have a policy to adjust awards in the event that it would become necessary to restate financial criteria in such a way as to impact the basis for award of long-term incentives; however, the Compensation Committee could elect to adjust other elements of compensation or subsequent year awards if, in their view, it was appropriate.

The Company's policy does not allow the grant of option awards to be timed with the release of material non-public information such that it would have an effect on the exercise price that would benefit the executive. Independent Board members approve the annual incentive stock awards granted to executive management at the January Board meeting. The grant date set by the Board has typically been the end of the month to ensure earnings have been previously released to the public and all administrative requirements have been met. The exercise price of stock options cannot be less than fair market value as of the date the option is granted. Stock options and restricted stock awards are not re-priced, in accordance with the Company's longstanding practice.

#### *401(k) Defined Contribution Plan*

All employees of the Company and its subsidiaries, other than those classified as off-site employees, are eligible to participate in the Cass Information Systems, Inc. 401(k) Plan. Beginning in 2007, eligibility requirements were shortened to allow for monthly entry into the plan after one month of service, thereby providing increased employee access to this retirement benefit. Employees may voluntarily defer the maximum level allowed by the Internal Revenue Service (IRS), which was \$15,500 for 2007, plus an additional \$5,000 catch-up contribution for employees age 50 or older. The Company matches 50% of the first 3% of employee contributions, subject to IRS limitations. All employee contributions vest immediately. Company contributions are subject to a three-year vesting period.

#### *Defined Benefit Retirement Plan*

All employees of the Company and subsidiaries, other than those classified as off-site employees, become participants in the Retirement Plan for Employees of Cass Information Systems, Inc. at the next semi-annual entry period immediately following completion of one year of service. Upon retirement, participants in this qualified plan will begin to receive monthly payments equal to 1/12 of the sum of:

- (i) .9% of Final Average Earnings multiplied by the number of years of service, plus
- (ii) .5% of Final Average Earnings in excess of Covered Compensation multiplied by years of service.

Final Average Earnings is the average annual total compensation for the five consecutive years of highest earnings during the last ten years of employment. Covered Compensation is the average of the maximum social security taxable wage bases in effect for each calendar year during the 35-year period, ending with the year in which retirement age is attained under the Social Security Act. Earnings covered by the plan equal W-2 earnings up to the maximum IRS limit (\$225,000 in 2007). Service for benefit accrual purposes is the period beginning on the date of participation in the plan and ending on the severance date.

Normal retirement age under the plan is 65 with five years of vesting service. Early retirement eligibility is age 55 with five years of vesting service. Benefits for early retirement under the defined benefit pension plan would be calculated under the formula described above based on final average earnings and years of service as of the date of retirement, reduced by (i) 5/9% of 1% for each month by which the early retirement date or the first day of the month coinciding with or next following the 60<sup>th</sup> birthday, whichever is later, precedes the normal retirement date, and (ii) 5/18% of 1% for each month, if any, by which the early retirement date precedes the first day of the month coinciding with or next following the 60<sup>th</sup> birthday. Postponed retirement benefits are an amount equal to the greater of (i) the normal retirement benefit determined in accordance with the above formula using service and final average earnings through the postponed retirement date, or (ii) the actuarial equivalent of the normal retirement benefit on the postponed retirement date. The normal form of benefit is a straight-life annuity with 120 months guaranteed.

#### *Supplementary Executive Retirement Program*

The Company's benefits program also provides for the Cass Information Systems, Inc. Supplemental Executive Retirement Plan (the SERP). The SERP was designed to provide additional retirement benefits to key executives whose benefits are limited by the IRS under the Company's qualified plan.

Upon retirement, participants in the SERP will receive monthly payments equal to 1/12 of 70% of the Final Average Earnings, reduced proportionately for length of service less than 25 years. Such amount is further reduced by the participant's: (i) qualified retirement plan benefit, (ii) primary social security benefit, and (iii) 401(k) hypothetical annuity.

Final Average Earnings, normal and early retirement age, years of service and normal form of payment are the same as under the Retirement Plan for Employees of Cass Information Systems, Inc., as described above.

Early retirement benefits under the SERP are calculated to be an annual amount equal to 70% of the final average earnings multiplied by the number of full years of service divided by 25% (not to exceed 100%), less the sum of the defined pension plan benefit, primary social security benefit and 401(k) hypothetical annuity, reduced by 1/180 for each of the first 60 calendar months and 1/360 for each of the next 60 calendar months by which commencement of benefits precedes normal retirement date. Benefits are not increased if payment of benefits commences after the normal retirement date.

Gains or losses from stock options or restricted stock awards are not considered in the calculation of retirement benefits, for either the defined benefit plan or the SERP.

Employees are generally not eligible for benefits under the SERP if they leave the Company prior to reaching age 55, and they receive a significant increase in benefits if they remain with the Company until age 65; therefore, the Compensation Committee believes that the SERP is an effective executive retention tool.

#### *Perquisites and Other Benefits*

The Company provides executive officers with perquisites that the Compensation Committee believes are reasonable and competitive based on the Compensation Committee's knowledge of other companies with which the Company competes for talent. For 2007, these perquisites included an automobile allowance and, where deemed appropriate, a country club membership allowance. Historically, the Company has not benchmarked or set targets for this compensation component. The perquisites' value to the executive, as well as the incremental cost to the Company, is considered when establishing compensation levels; however, the value of this component of compensation is modest and has not been given significant weight by the Compensation Committee when establishing overall levels of executive compensation. Executive officers are eligible to receive the same health, dental, disability and life insurance benefits as are available to all other full-time employees of the Company and its subsidiaries.

### *Post-Employment Payments*

Executives of the Company do not have employment agreements, nor are there any provisions for payments following or in connection with any termination or change-in-control, other than for provisions that allow for SERP benefits, stock options and restricted stock awards to vest upon a change in control or in some circumstances, upon disability, in accordance with their respective plans.

### Federal Income Tax Deductibility Limitations

The Compensation Committee takes into consideration the tax consequences to employees and the Company when considering types and levels of awards and other compensation granted to executives and directors.

The Compensation Committee also considers the potential impact of Section 162(m) of the Internal Revenue Code. Section 162(m) disallows a tax deduction for any publicly held corporation for individual compensation exceeding \$1 million in any taxable year for the CEO and the other senior executive officers, other than compensation that is performance-based under a plan that is approved by the shareholders of the Company and that meets certain other technical requirements. Based on these requirements, the Compensation Committee has determined that for 2007 Section 162(m) will not prevent the Company from receiving a tax deduction for any of the compensation paid to executive officers.

### Post-Fiscal Year Compensation Actions

#### *Succession*

Mr. Collett has announced plans to retire from his position as CEO in mid-2008 while retaining his position as Chairman of the Board of Directors. To ensure a smooth management transition, the Board intends to offer Mr. Collett a compensation package that is expected to include the following: (i) an annual retainer of \$150,000, pro-rated for the first year, for Mr. Collett's services as Chairman of the Board, (ii) applicable director compensation, as outlined in the section titled "Director Compensation" herein, (iii) continuation of automobile and country club membership allowances, and (iv) retention of outstanding restricted stock, option and stock appreciation rights awards granted prior to his retirement, with the opportunity to acquire the restricted stock and exercise the options and stock appreciation rights on the vesting and exercise terms set forth in his award agreements. The Board has approved Mr. Collett's participation in the incentive bonus program and profit sharing plan for the period of January 1, 2008 through June 30, 2008, during which time Mr. Collett will remain the Company's CEO. Upon the effective date of his retirement, Mr. Collett will no longer participate in such program and plan or receive health and life insurance benefits. The Company and Mr. Collett will each have the right to terminate this arrangement at any time, with or without cause.

During 2008, Mr. Collett will not serve on any committees of the Board, but does intend to serve on the Executive Loan Committee of Cass Commercial Bank, the Company's bank subsidiary. Mr. Brunngraber, who was promoted to COO-President in 2006 as part of a long-range transition plan, will succeed Mr. Collett as CEO.

#### *Executive Compensation Comparative Data*

During 2007, the Compensation Committee retained Towers Perrin to provide comparative data on cash and total executive compensation prior to review and adjustment of executive management compensation for 2008. Data was provided for the Business and Professional Services, Financial Services and Payment Processing business segments. Consistent with prior years and the Company's intent not to engage in benchmarking, the Compensation Committee did not rely solely on comparative data, but did consider such elements when exercising its own judgment in determining 2008 compensation.

#### *Base Salary*

In January 2008, salaries were increased for the named executive officers based on overall performance of individuals (based on the factors discussed herein) and individual operating units, strong corporate earnings, and overall corporate growth over the past several years. Base salary increases from 2007 to 2008 were as follows: Mr. Appelbaum, \$211,000 to \$219,000; Mr. Brunngraber, \$274,000 to \$300,000; Mr. Murray, \$225,000 to

\$235,000; Mr. Langfitt, \$165,000 to \$180,000. These increases are consistent with those given in prior years. Mr. Collett did not receive a salary increase for 2008 due to his planned retirement and transition to Chairman of the Board later in the year.

*Long-Term Incentives*

Long-term incentive stock compensation awards made in 2008 were administered in accordance with the 2007 Omnibus Incentive Stock Plan. Awards were comprised of 50% restricted stock award and 50% stock appreciation rights. The grant date of the awards was the Board approval date. Awards were valued at that day's closing stock price for restricted stock as reported on Nasdaq and the equivalent Black Scholes value for stock appreciation rights. Awards were determined using the methodology described above under *Elements of Compensation* and were based on 2007 financial results averaged with the prior two years' results. The awards for 2008 are shown below. The restricted stock awards for 2008 have also been included in the beneficial ownership numbers reported in the Principal Shareholders table included herein.
